THE COMING CENSUS.

The panalties for obstructing the cenans takers, who begin their labors on the first Monday in June, are severe. The law save:

All persons above the age of twentyone years who shall refuse to furnish the information required by the Supervisor or Enumerator, shall forfeit and pay a sum not exceeding \$100, to be recovered in an action of debt. Southern statesmen are beginning to realize this, too, and in casting about for new alliances it is strikingly characteristic of this people that their eyes should have turned upon the man who did the most to subdue them. COUNTY FINANCES.

County Treasurer Boyd prepared a statement for the late Grand Jury showing the actual cash receipts and disbursments of Washoe county for 1879, and upon the order of the Board of Comfor the information of all taxpayers. The statement is complete with the single exception that it does not show the exact sum drawn from the treasury by each county official. Ma. Entron:-The recent report for expense of maintaining our insane out of the State ought to convince taxpayers of the importance of establishing was mooted at the last session of the Legislature, it was objected that the cost of a building would exceed the possible finances of the State. The com-mittee who visited the asylum at Stockton were assured that a building with necessary equipments would cost not loss than two thousand dollars for each inmate, or about three hundred thousand in the aggregate, and hence the necessity of continuing the contract with Messrs. Langdon & Clark. Now what are the facts. The building in which our meane are domiciled is in every respect convenient, comfortable and sufficient, and yet I will venture in judgment that a better and more suitable one can be built in Rene or vicinity

TWENTY-FIV THOUSAND DOLLARS, Furniture included. It is a mistaken idea that a public building must cost three to five times as much as one for private purpose of the same magnitude would cost. 'The furnishing of an asy-lum is quite incomensive—plain strong furniture and a rew carpets comprise the ultimatum in the asylum where our insane at now kept, some fifty or more are lodg it in one large room, the furniture in which consists of plain cot beadsteads with mattress and bedding to match, the average expense of which would not exceed \$15 each, or not more than ten or twelve hundred dollars in all. Many of the others are lodged in less expensive apartments, all of which, however, are kept clean, warm and comfortable. The building is a patched up hotel, and yet is ample for all purposes required. All the laundry work, much of the cooking and other work is done by the patients, as I was informed. The and trial jurors \$2,917 65; the boarding number of keepers required is quite of county prisoners, \$2,073 05, road number, and the expense of help compurposes. \$5,700 44; for schools, \$14,used are raised on the place, and most of the field labor is performed by the in-mates of the asylum. The State has extensive grounds, easily watered and capable of large agricultural production if properly cultivated. Many of the inmates could be utilized learn the financial condition of the in such cultivation, and thus most of vegetable expense of subsistence could be saved. Whether the "Bradley movement" so-called, could be made available in the construction of a building is a problem for others to solve; your correspondent has never seen the pyramidial structure. Should it be determined to build of stone the material is there; if of wood, it can be readily and cheaply obtained, so that a building capable of accommodating two hundred patients could be erected and furnished at an expense not exceeding fifty thousand dollars. Now, if we add interest and maurance (10 per cent.) on five thousand dollars to the foregoing estimate, it gives us a gross annual expendnture of \$36,739 as against \$55,000 which the State is now paying—at least a saving of eighteen thousand dollars per annum, which in three years would pay for the construction of a suitable ed debt transactions, amounting to building and give our people the benefit

A WOODEN BUILDING. If isolated, is quite as safe, more healthy and in every respect as comfortable as stone or brick, and can be built at half the cost of the latter; hence it would be advisable to use wood. Nevada does not need any ornamental monuments in the shape of public buildings. Let them be plain and substantial-made for use and not ornament. Onr present State officials have cheaply supplied a great want of the Capitol and Orphans' Home by the introduction of provement within our State. Let not forma residence.
